Alidermen Dennis O'Neill and Benjamin Fletcher have been appointed a special committee of the Common Council to test the electric lighting service of the city. The lamp committee has had several complaints against the dimness of the lights and the globes. The test which the committee will make without the knowledge of the company will be for the purpose of ascertaining the candlepower which the company furnishes the city.

The residents of the East End who have been showering the board of aldermen and the tax board with petitions for a new bridge at Arctic St. will be glad to know that \$5,000 has been allowed by the Board of Apportionment for a culvert of masonry construction to take the place of the flimsy frame structure which is in a state of collapse. The item is now on the preliminary list and there is every probability that it will remain there.

A citizen in looking over a number of old municipal registers at the city hall a few days ago found that in 1874 an appropriation of \$13,000 was made by the city to provide work for the needy unemployed. The city was on-ly a village at that time when compared with its present size, but a year ago when Alderman McMurray proposed an appropriation of \$10,000 to provide work for the men who were out of work at that time the members of the Tax Board thought that the Board of Charities was the proper place for the needy unemployed to go for aid. The mayor in 1874 was E. P. Goodsell and the appropriation was made and the money spent among men who were out of work as a result of the panic of 1873.
